STATEMENT ESTABLISHING UNINTENTIONAL DELAY

Due to a clerical oversight, a Canadian patent application corresponding to the present U.S. Non-Provisional patent application (Application Number 10/749,324) was inadvertently filed prior to submitting a request for withdrawal from nonpublication with the USPTO. This error was discovered by Applicant's representative during a routine review of the file. The error has been corrected immediately after the discovery by the filing of a USPTO Form SB/36, Rescission of Previous Nonpublication Request and Notice of Foreign Filing. In view of more than forty-five (45) days having elapsed from the date on which the Canadian application was filed, the attached Petition for Revival of an Application for Patent Abandoned Unintentionally Under 37 CFR 1.137(b) has also been immediately filed.

The entire delay from the error to the filing of the present corrective action was therefore unintentional.
